

“In October 2019 the Department of Veterans’ Affairs (DVA) introduced treatment cycle arrangements for referrals from general practitioners to allied health providers. The arrangements are currently being independently evaluated by Queensland University of Technology (QUT) at the request of DVA.

How your organisation can get involved

QUT is seeking stakeholder feedback on the treatment cycle arrangements from ex-service organisations and veterans’ associations. This involves answering 6 questions which can be done via: <https://survey.qut.edu.au/f/195250/10f7/>

Alternatively, please complete this pdf form (please see attached) and email it to the research team at evaluationproject@qut.edu.au

Engaging individual veterans

In addition, QUT would like to engage with veterans who have received allied health services under the treatment cycle arrangements.

We need your help to reach as many eligible veterans as possible. QUT would like to know if your organisation is willing to share the survey with your members: www.qut-dva-treatmentcycles-evaluation.com. You may share the survey through your website, newsletter, email lists, apps, social media accounts or display posters on your premises (please see attached).

What will be involved for veteran participants?

1. Participation will involve an online survey which will take approximately 10 minutes to complete. Participants cannot be identified in any way and their decision to participate is voluntary.
2. After completing the survey, participants will be invited to nominate to participate in a follow-up interview to discuss their opinions and experiences.

Questions or concerns

Any enquiries related to the survey should be directed to the QUT evaluation team by email evaluationproject@qut.edu.au or by telephone on 07 3138 5885 or 07 3138 0737.

Thank you for your contribution to the evaluation of the treatment cycle.

Kind regards
Liz
